MESSAGE FROM THE PRINCIPAL

GREETINGS TO ALL ASALAMU ALAIKUM

As I have been bestowed the responsibility of this institution. It's deeply satisfying experience to highlight the achievements of the staff and the students. In the words of George Bernard Shaw "Progress is impossible without change and those who can't change their minds can't change anything". This is what every child who enters this institution imbibes. They have the power of the mind to challenge and change their selves in the pursuit of bringing progress into the world they will face as they leave the school. From shy, self-conscious and unsure little children with the help of our mentoring they are groomed into confident empathetic and independent young women and men. In pursuance of our endeavor for an all-round development of our students, various career counseling sessions, exhibitions, competitions, departmental activities, sports tournaments, debates and workshops have been conducted throughout the year.

Every child is unique; we appreciate a child's individuality and try to nurture his strength. The aim of education is all about helping the child to realize and explore his potentialities and latent talents. Future of our world depends on our children. I strongly feel that education is a blend of academic excellence and creativity and as the Principal of the School; my motto is to encourage and empower our students to grow as a strong, reflective and humble individuals with discerning minds, prepared to make a mark in all spheres of life. Effective teaching is about involving students not only in their learning journey, it is also about talking to them about their well-being, encouraging them and helping them develop their skills simultaneously. Value oriented process is crucial for a school's all round developments. Social and emotional intelligence of a child plays a very significant role in their healthy growth.

Along with the association of the experienced educators, I will continue my work to maintain the legacy of the school by building strong relationships with parents, students and community partners. I believe that for the holistic development of a child involvement of parents is extremely important. I request parents to share their valuable inputs for the growth of children.

I am certain that our students of yesterday, today and tomorrow will carry forward the motto of "Education is Life, Life is Education"

ALLAH BLESS US ALL

ALUMNI TESTIMONIALS

I literally had my 6 golden years of a deep yet remarkable curves of learning figured out in this prestigious institution. Not just the academics but the basic dynamics of being well educated than just being literate was taught to us through numerous pragmatic life lessons from the patron himself who is not among us any more. But the thoughts engraved by him on the souls continue to follow the footsteps.

DR. UZMA ASHRAF

Being an alumni of Life School, I am grateful for the incredible journey of over a decade i had within those walls.I now find myself in GMC Srinagar having successfully qualified NEET. Life School equipped me with a solid foundation through the rigorous education and unwavering support from the mentors which paved the way for my pursuit of a medical career.The values imbibed in me during my time at the institute continue to guide me in academic endeavours and personal development.Being connected with the alma mater through social media, i do feel proud to witness the ongoing progress both academically and non academically.The infrastructural development,New labs,Sports and other extra curricular activities enhancement is evident and shows the commitment of the school towards better overall education facilities.To the current lifians I'd say ,cherish every moment,create memories ,lifelong bonds and apart from academics don't miss out on any opportunity the schools offers you.

DR. MOHAMMAD BURHAN

It's important to start from right place in order to achieve your dreams .My journey at life school has been full of excitement learning and comprehension, academic excellence along with the overall growth of the person is what the institution aims at .Life school instills a positive school culture which motivates students to excel and dream big and different. There has always been a sense of belonging among students, staff and families, through academic, athletic, artistic, community service . Life school taught me to correlate my educational learnings to practical scenarios of world in which we will have to commercialize our time and skills Professional and Practical approach to academics, boosting moral and cultural values, nurturing the skills abilities of students and promote the same to its peak are some qualities of life school which differentiate it from others. additionally, I can say that high quality of teaching and friendliness of the staff exceed far beyond my expectations. infrastructure is also designed to suit the growing needs and curriculum is designed to prepare kids to blossom in every facet of life! Thank you life school for accompanying me through my journey. Always proud to be a Lifian .

DR. NUSHUBA

I have always been glad to be a part of life school. The dedicated teachers, supportive environment, academic curriculum not only prepared me for higher education but also instilled values that still guide me in life. Life school provided us with an activity based approach to learn, innovative educational opportunities, and personality development programmes. My journey from school to pursuing MBBS has been truly enriching. The strong foundation laid by the faculty members and a holistic approach to education has played a pivotal role in shaping my academic and professional success. The emphasis on critical thinking, group studies, communication skills and a sense of serving society fostered my passion for medicine. I am proud to be an alumnus of life school.

DR. ASMA IRSHAD

I'm humbled to acknowledge that the dreams I was supposed to achieve were all done, taught, shaped, and crafted at this school. In my view, we received a classic education for the time. We received an education of great value that involved handling academic challenges, mastering communication skills, pursuing leadership qualities, learning societal awareness and what not. We, absolutely, received an education we can be proud of I personally believe that LIFE School knows its students well and it tends to work on their potential to set meaningful and aspirational goals to help them achieve positive outcomes in living, learning, and working. And this is regardless of whatever the post-school pathway for the student will be. What I found or experienced is that this school is carefully developed and supported by a strong team of teachers and allied professional staff working in synergy and in close bonding with parents and caregivers. The journey of this school is truly student-centric which has transformed and nurtured the lives of many students. I extend my gratitude to the school for its positive and profound impact that it have on me and I'm grateful to be the part of LIFE School's alumni.

DR. FAHEEM AKBAR

Life is education, education is life. One line we all shared and nurtured in Life School for 14 long years. The institution started with a vision and a mission of providing better quality education by Late Assad Ullah Afaqi sir, i take pride in calling myself the first of the first bathes of LIFE School Zaloosa. All the time i have spent in LIFE school and all the things i have learnt have always helped me to this day. One should have a strong academic base to excel in life and LIFE school gave me that. I used to be a shy kid but the teachers groomed me and made me a better version of me. From daily morning assemblies to last gathering before the school closing time, it was all in all a good place to learn and excel. Speaking for myself, after competing my schooling from LIFE school, i went for my further studies in different institutions in different parts of the country and fast forwarding to this day i am a civil engineer.

ER. SALMAN NAZIR

I am truly grateful for the enriching experience at Life School. The dedicated faculty, diverse learning opportunities, and supportive community have shaped my academic journey positively. From engaging classrooms to collaborative projects, Life School has instilled in me a passion for learning and critical thinking. My journey here has not only expanded my knowledge but also instilled values that will guide me in the future. The supportive faculty, diverse extracurriculars, and emphasis on character development make Life School a truly adorning experience. Grateful for the enriching experiences and lifelong connections forged at Life school.
